BUSINESS TORNIO

Preliminary estimates, for planning purposes only

Outokumpu is planning a circular ecosystem around its side-streams in Tornio – Norsk e-Fuel first partner to join

More partners invited to innovate & build new business around Outokumpu's side-streams; ~60ha land available for new partners

- **Outokumpu's CO gas to be used as feedstock** for synthetic aviation fuels production (eSAF), enabling the most competitive production in Europe
- **Outokumpu acts as the enabler for project**, Norsk e-Fuel responsible for project execution, construction and later operating the plant
- Feasibility study ongoing, Norsk e-Fuel planning **Final Investment Decision in 2028**
- Benchmark project for Outokumpu's **circular ecosystem, planned in Koivuluoto, Tornio**
